THIRD EDITION

Jonas F. Soltis, *Editor*

The revised and expanded Third Edition of this series builds on the strengths of the previous editions. Written in a clear and concise style, these books speak directly to preservice and in-service teachers. Each offers useful interpretive categories and thought-provoking insights into daily practice in schools. Numerous case studies provide a needed bridge between theory and practice. Basic philosophical perspectives on teaching, learning, curriculum, ethics, and the relation of school to society are made readily accessible to the reader.
